

Regarding MB Docket No. 04-233 and how it would affect the radio station K-LOVE, I urge you to reject the LPFM expansion proposal. In my busy healthcare office, K-Love provides a positive, healing family enriching environment. My patients often thank me for the choice of office music. In my commute, it soothes and secures my drive. I believe my experience is not unique and the K-Love broadcast has a positive effect on the community and can only be looked at as good, and truly serves the public interest.
